

CalChamber Committees

The California Chamber of Commerce maintains policy committees that draft and review policy and make recommendations to the Board of Directors on a range of issues, including education, labor and employment law, health care and tax policy. In addition, the CalChamber establishes ad hoc committees as the need arises to address other policy issues. Committees range in size from eight to 100 members and meet between two and four times a year (or, as needed) at locations throughout California or via telephone conference calls. The committee chairs generally are members of the CalChamber Board of Directors and work closely with the CalChamber's public policy team members, permitting the CalChamber to act quickly as issues emerge. Membership in committees (other than those whose membership is by appointment) is open to managers, technicians and/or policy experts with member companies. To get involved, submit the online form at www.calchamber.com/getinvolved.

Policy Committees

Climate Change

Goal: Monitor implementation of AB 32 climate change legislation and its impact on California businesses, including Air Resources Board activities; risk management and corporate strategies to help lessen the financial burden of climate change mitigation efforts; and national/global efforts that could help California businesses grow and promote their technologies/services elsewhere. (Must be CalChamber Board member to join.)
