Los Angeles, March 5th, 2010.

Dear friends

In the name of Prochile and the Embassy of Chile in the United States, I would like to thank you for all communications and support expressions we have received on these difficult times for Chile.

The mission of the people of Chile is starting to rebuild the devastated zones of the country through the force of the unbreakable national and international solidarity.

The President of Chile, Ms. Michelle Bachelet, has requested specific assistance to the international community: satellite phones and antennas, generators, transitional houses, mechanical bridges, field hospitals, structural damages evaluation systems, salt water purification systems (drinking water supplies), tents, dialysis centers, mechanical public centers (food centers) and rescue expert teams. Please contact us if you would like to provide assistance with any of these requirements.

Finally, I am attaching Ambassador of Chile to the United States letter containing details about how we can make contributions, "Chilean Exporter Association" press release with information on a survey conducted throughout the country about actual condition of the export sector and "Wines of Chile" communication on the status of the industry and supply chain logistics after the earthquake.

Our deepest appreciation and thanks for your time and support.

Best regards,

PROCHILE LOS ANGELES
